## OREVA GROUP

Ajanta Manufacturing Limited is the name of the corporate presence behind the leading OREVA brand of the country. The company manufactures CFLs, Vitrified Tiles, ACPs and E-bikes – all in a single integrated facility located on approximately 181 acres land near Samakhiyal village in Kutchh district of Gujarat. Be it the CFL (power savers), Vitrified Tiles or E bikes technology, Ajanta Manufacturing Limited has set the markets aflame with their presence in the very short time once they have entered the market.

They are single handedly responsible for making the products, which were earlier considered pure luxuries and were meant for only affluent sections of the society, absolute within the reach of the common people. Whether it is the case of CFL lamps which were once only the interior decoration accessory and is now the most economical lighting option for people of India. OREVA is today one of the leading brands in Vitrified Tiles industries in India. Also OREVA is amongst the leading few industrial houses to invest in the affordable E-bikes technology that has the potential to revolutionize the way people travel in this country and is off course the answer to all the scarcity of the petrol resources.

Company products are developed to meet the needs of mass market consumers in India. Core philosophy of the company is to maximize "value for money" by offering quality products at affordable prices. Company's primary focus has remained on the Indian middle income consumer, which constitutes a majority of the total market for any consumer product in India. And this philosophy has been instrumental in the success of company businesses so far.
